Subject: Re: Seeking permission to reprint figure

I am very happy for you to use the figure as you propose.

Dear Dr. Phillips,

I am a Ph.D. student at Rowan University in New Jersey, USA. I submitted a manuscript to a journal ([William and Mary Educational Review](#)) that requires written permission to reprint figures/tables/graphs. I am seeking your permission to reprint Figure 4 in the attached article, a structure for comparative inquiry. I have utilized this structure for my paper and rather than simply explain the process, I thought showing the figure would be beneficial to readers.

Thank you for your consideration.

With great regard,
